

QPushButton

QPushButton

curve\_storage.gui.FitButton

```
classDiagram
    class QPushButton
    class FitButton["curve_storage.gui.FitButton"]
    QPushButton <|-- FitButton
```

The diagram illustrates a class inheritance relationship. At the top, there are two boxes, both labeled 'QPushButton'. Below them is a box labeled 'curve\_storage.gui.FitButton'. A horizontal line connects the two top boxes, and a vertical line descends from its center to the top of the bottom box. From this point, two arrows branch out horizontally to point at the bottom of each 'QPushButton' box, indicating that 'curve\_storage.gui.FitButton' inherits from 'QPushButton'.
