

QPushButton

QPushButton

curve_storage.gui.DirectoryButton

```
classDiagram
    class QPushButton
    class DirectoryButton["curve_storage.gui.DirectoryButton"]
    DirectoryButton --|> QPushButton
```

The diagram illustrates a class hierarchy. At the top, there are two boxes, both labeled 'QPushButton'. Below them is a single box labeled 'curve_storage.gui.DirectoryButton'. A horizontal line connects the two top boxes, and a vertical line descends from its center to the top of the bottom box. From this point, two arrows branch out, each pointing upwards to the bottom of one of the 'QPushButton' boxes, indicating that 'curve_storage.gui.DirectoryButton' inherits from 'QPushButton'.
