

QComboBox

QComboBox

curve_storage.gui.plotOptions

```
graph BT; A[curve_storage.gui.plotOptions] --> B[QComboBox]; A --> C[QComboBox];
```

The diagram illustrates a class hierarchy where a single class, `curve_storage.gui.plotOptions`, is inherited by two separate `QComboBox` objects. A horizontal line connects the two `QComboBox` boxes, and a vertical line descends from its center to the `curve_storage.gui.plotOptions` box. Two arrows point upwards from this vertical line to the bottom of each `QComboBox` box, indicating the inheritance relationship.
