

QSpinBox

QSpinBox

curve_storage.gui.PageNumberWidget

```
classDiagram
    class QSpinBox
    class PageNumberWidget["curve_storage.gui.PageNumberWidget"]
    PageNumberWidget --|> QSpinBox
```

The diagram illustrates a class inheritance relationship. At the top, there are two boxes, each labeled 'QSpinBox'. Below them is a single box labeled 'curve_storage.gui.PageNumberWidget'. A horizontal line connects the two 'QSpinBox' boxes, and a vertical line descends from the center of this line to the 'curve_storage.gui.PageNumberWidget' box. From the left side of the vertical line, an arrow points up to the left 'QSpinBox' box. From the right side of the vertical line, an arrow points up to the right 'QSpinBox' box. This indicates that 'curve_storage.gui.PageNumberWidget' inherits from 'QSpinBox'.
